► pro-bio boost

PRO-BIO features 10 different strains of probiotics to promote healthy immune and digestive systems.* By improving your body's ability to absorb nutrients, PRO-BIO aids in blood sugar stabilization.*

► benefits

- Increases the population of “good” bacteria in your digestive tract*
- Helps maintain the natural balance of intestinal microflora*
- Promotes a healthy digestive system*
- Supports proper lactose digestion and utilization*
- Improves body's ability to absorb nutrients from food*

► features

- **PRO-BIO CORE** Boost contains 10 strands of probiotics. The healthy bacteria in the digestive tract can become disturbed and probiotics are live bacteria that help restore your digestive system and assist in allowing your intestines to function optimally.
- **FOS-FOS** is a form of inulin. There are many forms of inulin and agave inulin is what is used in the PRO-BIO Boost. It is a soluble fiber that is a prebiotic, so it stimulates the growth of good bacteria, which keeps your intestines healthy by balancing the bacteria. It also aids in the absorption of some minerals, most importantly, calcium, which is necessary for healthy bones.
- **Litesse® (Polydextrose)** - A low calorie soluble fiber and prebiotic for digestive health. The functions of Litesse® include improving flavor, texture and nutritional profile.
- **All-natural ingredients**

► key ingredients
